SAFETY MEETING / TOOLBOX TALK PROGRAM

TENNESSEE LAWN CARE, INC.

865 Johnson Rd, Oliver Springs, TN 37840

Crew Size: 10 employees · Established 1984

President: Ron French · Vice-President: Michelle French

Original Issue Date: January 1, 1984

Current Revision: December 1, 2025

Revision 2025-05 – Fully compliant with December 2025 federal OSHA and TOSHA requirements (29 CFR 1926.21(b)(2) for general safety training; finalized Heat Illness Prevention Standard effective Dec 1, 2025, requiring weekly heat-specific talks May–Oct; PPE fit rule 29 CFR 1926.95(c) Jan 13, 2025; TOSHA full alignment with federal standards per TCA § 50-3-101 et seq., no state-specific changes; enhanced near-miss review emphasis in TOSHA consultations; OSHA penalty adjustments for non-compliance up to \$165,514; no new TN revisions beyond federal adoption)

Revision History (Key Updates)

Date	Change / Legal Driver
Jan 1, 1984	Original verbal safety huddles
Jul 1, 1996	First written sign-in sheet introduced
Jan 13, 2025	Added mandatory PPE fit verification in talks per 29 CFR 1926.95(c)
Dec 1, 2025	Integrated finalized OSHA Heat Illness Prevention Standard (29 CFR 1910.1450, effective Dec 1, 2025 – weekly heat-specific talks required May–Oct); TOSHA confirmation of no state-specific changes (TCA § 50-3-101 et seq., aligned with federal); added near-miss review emphasis in TOSHA consultations and penalty awareness (max \$165,514)

CURRENT SAFETY MEETING / TOOLBOX TALK PROGRAM (as of December 1, 2025)

1. PURPOSE

Short, focused discussions to reinforce safe practices, review incidents/near-misses, and ensure compliance with OSHA/TOSHA standards. These meetings maintain our zero-recordables and satisfy client audits (ISNetworld, Avetta).

2. MEETING EXPECTATIONS – NON-NEGOTIABLE (2025)

Item	Requirement
Frequency	Every Monday at 6:45 a.m. (15 minutes max) + immediately after ANY incident or near-miss
Attendance	100 % – no one starts work until they sign the sheet
Location	Shop or tailgate of lead truck
Presenter	Ron French, Michelle French, or trained crew leader
Topics	Rotate weekly + immediate discussion of every incident/near-miss; must include heat illness when applicable (May–Oct per 2025 Standard)
Documentation	Sign-in sheet with topic, date, presenter, and every crew signature

3. EXAMPLE – TOOLBOX TALK (Held after the August 8, 2025 weed-eater window incident)

TENNESSEE LAWN CARE, INC. – WEEKLY TOOLBOX TALK

Date: Monday, August 11, 2025

Time: 6:45 – 7:00 a.m.

Location: Shop – 865 Johnson Rd

Topic: “WEED EATER FLYING DEBRIS – NEW RULES AFTER THE CHURCH WINDOW WAS BROKEN”

Presenter: Ron French

Key Points Covered (read aloud):

1. Last Friday at 138 Fairview Cir (church job): A rock shot out of the weed eater and shattered a window (\$125 damage). No one hurt, but it could have been a person.
2. Root cause: We trimmed too low and too close in a rock-filled flower bed.

NEW RULES – EFFECTIVE TODAY (written into every JHA):

- Before trimming within 20 ft of any window, car, or person → walk the area and hand-pick or rake loose rocks/gravel if they do not belong in the area to be serviced.
- Hold the weed eater head 3–4 inches above ground in rock beds.
- If rocks can't be cleared, use a blower first or hand-pull weeds.
- Full face shield + safety glasses REQUIRED when within 50 ft of windows or people (2025 PPE fit rule – check it fits tight).
- Heat index over 90 °F → mandatory 10-minute shade break before edging near buildings.

Live Demo: Ron demonstrated correct high-angle technique and pre-trim rock sweep.

Questions / Discussion:

Vincent: “What if there are too many rocks?” → Ron: “Hand pull the weeds in the rock bed”

Ben: “Do we wear face shields all day now?” → Ron: “Only when close to hard surfaces or people – but it's cheap insurance.”

Attendance & Acknowledgment

“I have heard, understand, and agree to follow the new weed-eater / flying debris rules.”

Name	Signature	Date
Ron F.	/s/ Ron French	8/11/2025
Michelle F.	/s/ Michelle French	8/11/2025
