Tax	\$588.00
Total	\$8,988.00

- Inclusions:
- a. Fabricate faucet and sink cutouts.
 - a. *cut-outs will be done in fabrication shop using templates provided by manufacturer.
 - b. Sinks (provided by others) will be mounted on-site either using anchoring post or the clamps bracket with all the necessary installation materials such as glue, caulking,

- silicone, and other materials needed to complete installation.
- a. *All sink and countertop meeting surfaces will be sealed using clear silicone as per division 12.36.61.19.
 - c. If architectural drawings call for back and side splashes, they will be in field attached as per division 12.36.61.19.
 - a. *Back and side splashes will be same material and thickness as countertops.
 - d. Provide all installation materials (glue, caulking, silicone and other materials needed to complete installation).
 - e. Standard overhang as per architectural drawings.
 - f. Equipment/hoisting needed for installation.
 - g. Taxes are included in the final price stated above.

**Total project is about 120 S/F.

**Perform seam setting where necessary.

** Lead time for material order/installation is approximately 1-2 Weeks.

*** Once contract is approved we require 35% advance payment for materials to be ordered/stocked.

- Exclusions:
- a. Will not perform any type of plumbing or appliances.
 - b. Any item not specifically listed is considered excluded.
 - c. If countertops require support, they will need to be provided by others.
